ABOUT ME

Frontend Developer with **2.5 years** of experience in building SPAs using **React, Redux, Redux Toolkit, and Next.js**. Proficient in **TypeScript, JavaScript ES6+, HTML, CSS, and SASS**. Passionate about creating responsive, user-friendly interfaces and optimizing application performance.

I'm constantly **expanding** my skillset by exploring new technologies (including Vue).

EXPERIENCES

Frontend Web Developer Contract Project, Belarus

Nov 2024 - Present
part-time

Developing the user interface (UI) and functionality for a lawyer's website from scratch, including:

Designing and implementing a responsive UI for seamless user interaction.

Developing the backend for feedback and article management, ensuring reliable content storage.

Integrating features for article management and client interaction, including feedback forms.

REACT NEXT.JS TYPESCRIPT SCSS EXPRESS NODE.JS AXIOS MONGODB REDUX TOOLKIT

Frontend Developer Vizcontech, Russia

Dec 2022 - Oct 2024

Developed UI and functionality for a personal account and admin panel for content management.

UI Development: Created an intuitive and visually appealing website interface, increasing user engagement time by 30%.

Personal Account: Implemented features allowing clients to select and customize business card designs, serving as the primary tool for client interaction.

Admin Panel: Successfully designed an admin panel for managing website content, streamlining administration processes and boosting team efficiency by 20%.

API Integration: Integrated with APIs for order processing and data management, ensuring seamless functionality.

Responsive Design: Realized adaptive design principles to enhance user experience across various devices.

REACT.JS, TYPESCRIPT, REDUX/REDUX TOOLKIT, SCSS, RTK QUERY

Frontend Developer Start-up, Belarus

Oct 2022 - Dec 2022

Developed reusable components (LoadingSpinner, SocialLoginButtons) and cascading modals, along with server integration to enhance application functionality. Successfully migrated the project to TypeScript, improving code quality and maintainability.
